

# Interest Buffering

7th NDN Hackathon

Tianxiang Li

UCLA

# Task

- When transmitting Interests, what if there is no available faces
  - If no face available, Interest is buffered in PIT
  - Detect when a face is up, trigger Interest to be sent out on that face
  - Face should report to strategy its own status, whether it's up or down
  - Face signaling has not been supported yet in NFD
- Tools
  - NFD, ndn-cxx, C++
