Make NDN-RIOT + NDN-IoT pkg work on NRF52840

- Current NDN-RIOT works fine on Atmel Xpro boards

- Make it work on NRF52840, a board that support BLE, Bluetooth 5.0, and 802.15.4 at the same time!

- Goal: to let the existing service discovery and access control protocol function on the new boards

- Requirement: NRF52840 board, C coding skills

- **Zhiyi Zhang, Yanbiao Li, Bo Chen,** NDN-IOT
