Mini-NDN documentation

- Add any missing documentation and auto-generate to website
  - Also create a FAQ/documentation of most popular questions from the mailing list
- Contribution to NDN
  - Lower getting started barrier with Mini-NDN
- Tasks
  - Choose a documentation standard and setup auto generation
  - Identify what documentation can be updated and what needs to be added (look at mailing list)
  - Verify + update existing doc and add new documentation
- Required knowledge for participants
  - Mini-NDN, Mininet, Python, Probably Sphinx/Doxygen
- Expected outcome
  - Updated documentation which is automatically mirrored to the website
